

Report on CME-08

Every week either Continued Medical Education (CME) or Continued Research Education (CRE) is conducted at the college to improve and refresh the clinical and academic knowledge of the doctors, interns and students. On 17th July 2021, CME was conducted virtually from 2:30 to 3:00 pm. **Dr. M. R. MONICAASUN**, Lecturer and Medical Officer, Department of Biochemistry was the speaker of the session and she spoke on '**GUT-LIVER-KIDNEY AXIS**', a discussion on opinion article which describes the concept of gut microbiota relating with liver and kidney functions and highlighted importance of Naturopathic diet in gut microbiota dysbiosis. Faculty, interns and final year students attended the session physically. Doubts were clarified clearly by the speaker following the session.

GUT - LIVER KIDNEY AXIS
